Tito Jaramillo Salazar

Software Engineer · Customer Care Engineer

Quito, Ecuador tito@titorjs.dev titorjs.dev github.com/titorjs linkedin.com/in/tito-jaramillo-salazar-769ba922b

PROFILE

Software engineer with experience in support and incident resolution for enterprise Java (Spring) and .NET systems on Oracle DB, and in full-stack web development. Interested in building applied-AI solutions: I am developing a financial portfolio platform integrated with stock exchanges, and I use AI-assisted development tools in my work and projects.

EXPERIENCE

Customer Care Engineer

feb 2024 – present

Fisa Group · Quito, Ecuador · Full time, hybrid

- Bug fixing in Java (Spring) systems on Karaf, JBoss and Oracle DB, and in .NET systems on Oracle DB.
- Handling customer queries and support cases; follow-up meetings and technical explanation of incidents.
- Beta tester of an automated, human-supervised AI bug-resolution workflow, providing feedback to the team.
- Daily use of AI-assisted development tools (Kiro and Kiro CLI).
- Represented the company at the Volaris AI Growth Accelerator (Volaris is Fisa Group's holding) in Texas, USA (2026).

Software Developer Intern

jul 2023 – jan 2024

Fisa Group · Talent Seed programme · Part time

- Environment setup across several technologies and training on the company's products.
- Technologies: Spring Boot, PL/SQL and Oracle Forms.

Teaching Assistant

nov 2022 – jan 2024

Universidad de las Américas (UDLA) · Quito, Ecuador

- Supported lecturers with class activities and material, and with faculty and university events.
- Developed programming projects.

EDUCATION

B.Eng. in Software Engineering

sep 2021 – feb 2026

Universidad de las Américas (UDLA) · Quito, Ecuador

Graduated; degree registered with SENESCYT (mar 2026). Overall GPA: 9.158/10.

PROJECTS

Financial portfolio web platform

in development · 2026

Angular · Java Spring · PostgreSQL · Flyway · Docker

Frontend, backend and integration with stock-exchange systems to query and snapshot the data shown to clients. Planned evolution towards a mobile version and new processes. Built with Claude Code and orchestrated agents.

TECHNICAL SKILLS

Languages	Java, SQL and PL/SQL, C#, Python, JavaScript/TypeScript
Frameworks	Spring Boot, .NET (Entity Framework), Angular, React, Next.js
Data & infrastructure	Oracle DB, PostgreSQL, Flyway, Firebase, Docker, JBoss, Karaf, Git and GitHub
AI & tooling	Claude Code, Kiro and Kiro CLI, orchestrated agents, prompt engineering
Methodologies	Scrum, BPMN (Camunda), Lean Six Sigma (White Belt)

CERTIFICATIONS

- Learn Camunda BPMN, DMN with Spring Boot, Udemy (aug 2026)
- Scrum Foundation, Lean Six Sigma White Belt and Prompt Engineering Foundation, CertiProf (2025)
- Other courses: Python, Oracle PL/SQL, MATLAB Machine Learning, Quantum Computing and Blockchain (Coursera)

AWARDS

First place, Drones Freestyle category (Robot & Science) · Second and third place (Robomatrix)

LANGUAGES

Spanish: native English: B2 (no certificate; passed Advanced II at UDLA)
